PROFESSIONAL SUMMARY

MCA student specializing in AI & ML at Mangalore Institute of Technology & Engineering (MITE), Mangalore. Skilled in HTML, CSS, JavaScript, Node.js, Python, and MySQL with hands-on experience building responsive, user-friendly full stack web applications. Passionate about clean UI, solid backend integration, and continuously learning new technologies. Open to internships, freelance projects, and team collaborations.

EDUCATION

Masters of Computer Application (AI & ML Specialization) Mangalore Institute of Technology & Engineering (MITE), Mangalore	Pursuing Expected July 2027
Bachelor of Computer Application Bidar CGPA: 8.5 / 10	August 2025
Senior Secondary (Class 12) — CBSE Bidar 58.33%	March 2022
Secondary Education (Class 10) — CBSE Bidar 73.92%	March 2020

INTERNSHIP EXPERIENCE

Web Development Intern, Sysylan IT Solutions <i>Web Development Internship 2nd July 2026 - 2nd August 2026</i>	<i>Yavatmal, India</i>
- Designed and developed responsive websites, building interactive user interfaces using HTML, CSS, and JavaScript. - Integrated frontend and backend components to deliver complete, functional web features. - Optimized website performance and ensured cross-browser compatibility across projects. - Received Internship Completion Certificate for demonstrating strong technical skills and consistent contribution throughout the program.	

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript
Backend: Node.js, Python, java
Database: MySQL
Tools & Platforms: Git, GitHub, VS Code, Netlify, Render
Soft Skills: Leadership, Team Work, Collaboration, Problem Solving, Adaptability

PROJECTS

Medical Expenses Estimator with Range Transparency HTML · CSS · Python · Machine Learning · Dataset Analysis	June 2026
- Built a web-based tool providing transparent cost estimates for medical procedures, treatments, and consultations — showing low, average, and high price ranges. - Incorporated factors such as location, provider type, and insurance status to generate accurate, data-driven cost estimates. - Trained and integrated a machine learning model using a structured medical dataset to power backend predictions. - Developed a clean, responsive frontend to help patients make informed healthcare decisions before visiting a facility.

Food Delivery Website

January 2025

HTML · CSS · JavaScript · Node.js · MySQL

- Built a responsive food ordering platform allowing users to browse menus, place orders, and make secure payments.
- Integrated a MySQL database to efficiently manage customer profiles and order data.
- Ensured full mobile compatibility and optimized user experience across all screen sizes.
